## MagPump Launches NEW 9mm Magazine Loader for 2018

**Henrietta, NY (January 17, 2018)—**

MagPump, LLC announces the fastest and most reliable 9mm magazine loader available on the market today. The new MagPump 9mm Luger Magazine Loader will reduce loading time by more than 50%, and will eliminate hand fatigue caused by repetitive magazine loading.

The 9mm magazine loader is available in two models; the standard model- designed and constructed of lightweight

and durable polymer, and the ELITE model—CNC machined from 6061-T6 aluminum billet and black anodized with laser engraving.

Proudly made in the U.S.A., the new 9mm loader uses a 50-round capacity hopper, includes six retainers that adapt to various magazine brands and offers built-in safeties to prevent damaging ammunition during the loading process.

“All of our magazine loaders greatly benefit military personnel, law enforcement, shooting competitors, and gun enthusiasts. MagPump is an effective tool that easily, quickly and properly loads magazines,” said Garret Armstrong, MagPump Chief Marketing Officer.

The new MagPump 9mm Luger Magazine Loader is compatible with double-stacked magazines for the following handgun models:

SIG—320, P224, P226, P228, P229, P250, SP2022, 2340, 2009

Glock—Glock 17, Glock 17L, Glock 18, Glock 19, Glock 26, Glock 34

Springfield—XD double stack magazines, XD mod. 2 double stack magazines

Smith & Wesson M&P—All double stack M&P 9mm magazines  
CZ USA—P10  
Ruger—SR9, SR9c, 9E

**MSRP**

9mm Luger—\$149.99

9mm Luger ELITE—Coming Soon

“I want to spend my time shooting...not reloading,” said Kyle Lamb, founder and president of Viking Tactics, Inc. “If you are a serious shooter, the MagPump is an absolute necessity. In order to focus on training, I am a big believer in the MagPump loaders.”

In addition to the new 9mm magazine loader, MagPump also offers models for AK47 and AR15 magazines.
